# AVENGER

**Behind the neck design**  
**Lightweight & durable**  
**Comfortable fit under ballistic helmets**

Features:

- \* **Slimline behind the neck design with adjustable Velcro head strap allows comfort fit with ballistic helmets or stand alone**
- \* **Waterproof Internal electronics, battery compartment and microphones**
- \* **Noise cancelling boom microphone with crystal clear communication**
- \* **Two independent external microphones powered by two AAA batteries allows situational awareness in high risk environments**
- \* **Earcup audio speakers allows reliable communications with command center**

The Avenger Tactical PTT offers a silent durable push-to-talk switch that is heat and chemical resistant. Its unique waterproof design allows reliable communications in high moisture environments. Our tactical PTT has a heavy duty clothing clip and is all black so that it is non reflective in covert operations. The Avenger Tactical PTT offers optional finger/sniper push-to-talk, that allows hands-free PTT activation for sniper or other operators carrying rifles, shotguns or shields.
